

February 2019

Flower of the Month: Roses

This month's flower is the rose. The rose has a long symbolic history, starting with its ties to the Greek Goddess, Aphrodite, the Goddess of love.

Valentine's Day is this month and our floral shop has you covered. We offer our roses in different color and at many different price points.

Did you know that you can order flowers online? Free in store pick up with 3 hours notice and delivery to the New Orleans area.

Order your flowers for Valentine's Day today! Call 504-488-8887 or go to www.theplantgallery.com.

Landscaping: Trees

Now is a great time to buy ornamental trees. Many trees are coming out of dormancy at this time and setting up for summer growth. You want to plant them before it gets really hot and when the spring-flowering trees are in bloom. This way you can see exactly what color blooms appear.

Investing in a tree can last you many years, save you energy costs on your home, and bring much beauty outside.

Call us at (504) 488-8887 to set up a free landscape consultation or book online at www.theplantgallery.com.

Garden Tips of the Month:

- **Perk up your cool season annuals:** Deadhead spent annuals, fertilize them with an all purpose fertilizer, and water it in. This will encourage your annuals to keep on keeping on until the warm weather comes in.
- **Trim Ground Cover:** Now is a great time to groom your ground cover such as liriop, mondo grass, and Asian jasmine. Remove unsightly dead growth to encourage nice new growth in the spring. Don't cut the ground cover too short or you may damage this season's leaves.
