### **Do you have a weed problem? Get your garden prepared for Spring!**

Dead leaves everywhere, weeds popping up left and right, and dead plants. If we just described your yard, it would be a great time to clean up the garden now and get it prepped for spring!

1. Clean it up: Pull the weeds, remove dead leaves and dead plants
2. Add Plants: This is the fun part! Add any new plants or warm season color for the new season ahead.
3. Add soil: Take this time to replace any soil that may have been washed away by rain. Just don't cover up the crown of the plant for good plant health!
4. Add Fertilizer: Water with water soluble fertilizer or apply slow-release fertilizer to your garden.
5. Add Mulch: Prevent weeds from coming back and help your plants conserve moisture by mulching your yard with cypress bark or crushed pine mulch.

Call us at (504) 488-8887 to set up a free landscape consultation or book online. [www.theplantgallery.com](http://www.theplantgallery.com).

### **Floral Department: A Succulent Filled Wedding!**

We were so proud to make this lucky couple's dream wedding come true. One-of-a-kind arrangements filled with succulents (the bride's favorite!) were perfect for this beautiful wedding.

Getting married? Schedule a free wedding consultation today with our floral specialists online at [www.theplantgallery.com](http://www.theplantgallery.com).
